Gentlemen:

Referring to your letter dated 25 November 1970 you are informed that under the provisions of Section 10 of the Act of Congress approved 3 March 1899, entitled "An act making appropriations for the construction, repair, and preservation of certain public works on rivers and harbors, and for other purposes," you are hereby authorized by the Secretary of the Army to dredge an extension to an existing channel which connects the Gulf Intra-coastal Waterway at Corps of Engineers Station 674600, the channel to have a top width ranging from 100 to 140 feet, a length of 4,600 feet and a depth of 11½ feet below mean low tide, the material removed from the channel to be placed on shore on permittee's property approximately 5 miles south from Hitchcock, Texas.

It is to be understood that this instrument does not give any property rights either in real estate or material, or any exclusive privileges; and that it does not authorize any injury to private property or invasion of private rights, or any infringement of Federal, State, or local laws or regulations, nor does it obviate the necessity of obtaining State assent to the work authorized. (See *Cummings v. Chicago*, 188 U. S., 410.)

You are requested to acknowledge receipt of this instrument.

BY AUTHORITY OF THE SECRETARY OF THE ARMY:

FOR LIEUTENANT COLONEL NOLAN C. RHODES, DISTRICT ENGINEER:
